CANDIDATES QUALIFY FOR RACE

Petitions Filed With the City Auditor Last Night Nominate Two Men From Each Ward to Contest at Election

When the city auditor closed his office last night the time for the filing of nominations for candidates for city office had come to an end. But contests are provided for each of the wards, there being two candidates for the council from each and two for mayor. There is only one seeking the privilege of handling the city funds, however, Jester being unopposed. For mayor, Dr. J. P. Truax and G. M. Caldwell have qualified as nominees by petition. For councilmen the nominees are as follows:

First Ward—W. A. Paddock and A. L. Edgerton.
Second Ward—F. G. Isham and C. H. Demaray.
Third Ward—Wm. Bunch and Ike M. Davis.
Fourth Ward—Wm. Trimble and Otto J. Knips.

The proposal for the purchase of the water system at \$120,000 will appear upon the ballot. The ordinance providing for the submission of the \$80,000 bond proposition for building a new system will not appear upon the ballot, the ordinance not having been passed at the session of the council Friday night.

TRUNK MYSTERY IS BAFFLING THE PORTLAND POLICE

(By United Press Leased Wire)

Portland, Nov. 20.—A blood saturated bed in a rooming house at 407 Stark street today revealed the place where the unidentified man whose body was found in a trunk in the Willamette river last night was murdered.

The discovery was made by Mrs. Anna DeCorsey, proprietress of the rooming house. Entering a ground floor front room, she noticed that the sheets and pillow slips were new. Pulling them back, she was horrified to see a mattress soaked with blood.

The police were immediately notified. Mrs. DeCorsey told the detectives that two men had rented the room Monday afternoon, paying a week in advance. One was heavy set and spoke with a Swedish accent. The other was small in stature.

While the men occupied the room, Mrs. DeCorsey said that she heard no noises out of the ordinary. The larger man, however, made several trips to the cellar yesterday morning, ostensibly to burn trash, the woman said. He also gave her two stiff bodiced shirts bearing the name of the dealer, "A. S. Sherman & Company, Sherman Square, Boston."

Yesterday afternoon the trunk was taken away by an expressman. Mrs. DeCorsey knew little of the removal of the trunk, but her neighbor, Mrs. Jessie Althoff, saw the express wagon drive up and the trunk lifted into it. Mrs. DeCorsey said that she gathered from chance remarks that the murdered man had lived 25 years in Boston, and that his companion had come from California.

The police are bending every effort toward capturing the murderer and identifying the dead man. The driver of the express wagon is also being sought.

NO VOTE ON BONDS FOR BUILDING NEW WATER SYSTEM

At the adjourned meeting of the city council held Friday night the ordinance providing for the submission to the voters of the question of the issuance of \$80,000 bonds for the building of a new city water system was read the first and second times. A motion was made to suspend the rules and read the ordinance the third time and place it on final passage. The suspension of the rules requires a three-fourths vote of the entire council, and as Burkhalter, Demaray and Herman voted against the suspension, only five, one less than the required number, could be mustered for it. The ordinance, therefore, was laid over till the next regular meeting of the council, which will make it too late to get it on the ballot.

The matter of the budget for 1916 expenses was brought up on the motion of Councilman Demaray, and the only change that has been made in the budget as submitted by the finance committee was reconsidered. This was the reduction of the budget allowance for the conduct of the auditor's office from \$1,500 to \$1,350. The figure was placed back at \$1,500.

Mrs. Jeanie Burke addressed the council, protesting as chairman of the park commission against the proposed lease of the municipal bath house in Riverside park. She also brought up the question of the contemplated combining of the office of park superintendent and city engineer and street superintendent, and asked if it was contemplated that the work at the park should still be under the direction of the commission. It was explained that the present council did not seek to fix either the duties or the compensation of the employees for next year, and that the new council to take its seat on January 1st would have to determine those things.

The next regular meeting of the council will be held on December 2.

MANY SMALL FIRES IN BETHLEHEM STEEL WORKS

South Bethlehem, Pa., Nov. 20.—Five small fires were discovered recently in one projectile factory of the Bethlehem Steel works. It was learned today. All, however, were extinguished without great damage.

BULL MOOSERS WILL REFUSE TO SUPPORT ROOT FOR PRESIDENT

(By United Press Leased Wire.)

New York, Nov. 20.—Whether the bull moosers will reunite with the republicans depends upon the latter, Medill McCormick announced today before leaving for Washington, following a conference with Colonel Roosevelt. Many bull moosers, he said, will vote for Wilson rather than for Root, whom the republicans appear to be grooming as their candidate.

"The progressives," he added, "do not intend to support the men who helped to 'frisk' them in the last convention."

AGGIES MEET SONS OF ELI BEATEN BY HARVARD

State University Eleven Takes Great Game From Old Time Rivals by Score of Nine to Nothing Before Big Crowd

Eugene, Nov. 20.—In one of the most heart-breaking football games ever seen on an Oregon gridiron, Oregon university defeated the Oregon Agricultural college this afternoon by the score of 9 to 0. In the very last 30 seconds of the game the Aggies forced the ball over Oregon's line for what appeared to be the score which would have saved them a shut-out, but the referee declared they had played off-side in doing so. Throughout the game Oregon played the better ball. The field was a sea of mud and close formation plays were mostly used. The forward passes almost all failed due to the slippery ball.

Oregon made her first touchdown in the first quarter after a series of line plunges. The other scoring was done in the final quarter, when the varsity secured a safety.

It was estimated that nearly 11,000 persons packed the grand stands, bleachers and side lines when the ball was kicked off in the O. A. C. and U. of O. game here this afternoon for the championship of the state and second place in the Northwest conference. The ground was soggy, despite large quantities of sawdust scattered over it.

The ball was wet and hard to handle.

Between halves, the Oregon rooters, led by their band, serpented around the field, chanting their college song. A huge bomb was exploded and a shower of green confetti floated over the field and bleachers.

Five hundred O. A. C. cadets also performed.

CLAMPING LID DOWN TIGHTER IN LONDON

London, Nov. 20.—London will be dryer before it is wetter. Following enforcement of its anti-treating order, England has clamped the lid on cafe liquor selling by reducing the hours in which wet goods may be sold and prohibiting any loans to be used for buying drinks.

SPRY PLANS CAMPAIGN TO RID UTAH OF I. W. W. AND REVOLUTIONISTS

Salt Lake City, Nov. 20.—With Governor Spry planning a campaign to rid Utah of I. W. W. members and revolutionists in general, authorities today set their plans to guard against an I. W. W. outbreak Sunday when the funeral of Joe Hillstrom, executed murderer, is held from an undertaking chapel here.

Without a clergyman, and with only the services of the order to which he belonged, last rites for Hillstrom will probably be conducted by Ed Rowen, secretary of the local organization. Police saw in the funeral ceremony the possibility of a wild outburst. Just as New York police jammed Union square when I. W. W.s held services for their bombmen, so Salt Lake City officers will be out in force to prevent any bomb outrages here.

The body will be sent to "Bill" Haywood at Chicago, where probably efforts will be made to have a bigger funeral.

SONS OF ELI BEATEN BY HARVARD

Yale Team Put Up Desperate Battle, But Was Swamped Under a Score of 41 to 0 on the Field at Cambridge

Cambridge, Mass., Nov. 20.—Yale's valiant team that flouted the critics and defeated Princeton was unequal to the task of adding the crimson scalp to its collection and went down in honorable defeat before the Harvard eleven today by a score of 41 to 0.

Yale fought with true Yale courage. Even in the face of overwhelming defeat, the sons of Eli struggled gamely, and when the final gun sounded they were contesting every inch of ground as desperately as they were when the first kick-off started the game.

Harvard was a much superior team. The figures composing the score, in fact, accurately represented the strength of the rival elevens. In defense and offense the crimson easily outclassed the grim Yale fighters; in everything but gameness Yale was hopelessly outclassed.

Captain Mahan added to his reputation won on many hard fought fields. Seldom did he fail to add material yardage when he carried the ball, and his work on the defensive was perfect. As usual, Mahan's toe was a big factor in the game. He more than held his own with the Yale kickers, and after Guernsey left the game he gained from five to ten yards on every exchange of punts. Furthermore, he added point after point with machine-like regularity through his goals after touchdowns.

With Mahan, Halfback King of Harvard shared the laurels of the victors. King's work throughout was of high order. Time after time he was hurled through the line for substantial gains, and his speed was greater than in any of the preliminary games. He electrified the bleachers by the most sensational run of the game, sprinting 58 yards to a touchdown after he had eluded the entire Yale secondary defense.

Guernsey had little opportunity to do service for Yale. He was compelled to quit the game early because of an injury.

Approximately 50,000 persons witnessed the game.

MEXICAN REBEL LEADER DESERTED BY MANY TROOPS

Douglas, Ariz., Nov. 20.—Hundreds of Villista troops are deserting the rebel leader, according to refugees arriving here today from the Sonora battlefields, where General Obregon and his Carranzistas are seeking to eliminate Francisco Villa from the Mexican situation. Short of ammunition and supplies, Villa is reported still desperately maneuvering his troops in an effort to escape the Carranzista trap, which is trying to close in on him from three sides. Many of his men, believing capture imminent, are said to have deserted to Carranza. Others have departed from the mountains and become bandits.

A number of slightly wounded men have arrived at border points. They say many other wounded are suffering great privation in Sonora.

RAVENSDALE IS HOLDING FUNERALS FOR DEAD MINERS

(By United Press Leased Wire.)

Ravensdale, Wash., Nov. 20.—Ravensdale today is devoting itself to the holding of funeral services. Several bodies of the miners killed in last Tuesday's mine explosion either were buried here today or were sent east. Two more were recovered from the third level last night and this morning. They were those of Romeo Medaine and Joe Baldacoi.

Fourteen bodies still are buried in the third level, but gangs of men are removing the mass of debris still blocking progress and hope to have them out within a day or two.

MONASTIR HAS BEEN CAPTURED BY TEUTON ARMY

(By United Press Leased Wire.)

Paris, Nov. 20.—Monastir, in southern Serbia, has fallen, according to reliable reports today.

With this city evacuated and crushed, it is believed, that the resistance of the southern Serbs against the Bulgars has ended. In the future, it is expected, the French and British must do the fighting there, while the Serb guerillas are campaigning separately, harassing the enemy as vigorously as possible.

Thus far no official announcement of the city's fall has been made, but reports of the Bulgar victory are from reliable sources.

The Bulgars are not expected, however, to press their advantage much farther south of Monastir, because it is less than 10 miles from the Greek border, and the Bulgars probably will be careful not to violate Grecian neutrality.

Northwest of Monastir the French and Bulgarians are reported in desperate combat. The French have resumed their movement toward Veles, but have not claimed gains in it.

Bulgar forces have hurled their forces against Strumnitsa, only to be repulsed. They are now trying by counter-attacks to recoup their losses.

He has notified the Seattle authorities to investigate Busky's story, declaring that Utah desires to prosecute Busky if he was with Hillstrom at the night the latter committed the double murders for which he was shot yesterday.

At the same time Spry wants an investigation of the record of the man who signed Busky's affidavit.

DEMobilize OR JOIN THE ALLIES

Demand for Immediate Action Is Made Upon King and the Diplomatic Situation in Greece Becomes Critical

Malta, via London, Nov. 20.—Immediate participation on the side of the allies, or demobilization of the Greek army, has been demanded by the allies of Greece.

London, Nov. 20.—The Grecian diplomatic situation is regarded here as very critical.

Private German advices from Copenhagen that the Athens government has ordered Greek vessels to leave French and Italian ports immediately despite the allied order temporarily internment them, is regarded as a hint that King Constantine intends to defy the allies.

Other German reports that the allies have sent an ultimatum to Greece, however, are not confirmed. Lord Kitchener was expected to see King Constantine today, unless the queen induced the latter to refuse the audience. Her efforts in this direction, however, were expected to fail, for she could not induce the king to deny Denys-Cochin, French cabinet official, a conference.

WANTS HENRY FORD PUT ON LABOR'S UNFAIR LIST

San Francisco, Nov. 20.—That Henry Ford, automobile manufacturer, should be placed on organized labor's unfair list, was the claim made in a letter from the Central Labor council of Oklahoma City, Okla., to the American Federation of Labor, in convention here.

The Oklahoma communication alleged that Ford is employing an "unfair" construction firm in the erection of a factory at Oklahoma City, and that union carpenters on the job have struck.

A request that Ford be placed on the "unfair" list was referred to a committee.

ITALIAN BATTERIES HURL 3000 SHELLS INTO GORITZ CITY

Vienna, Nov. 20.—Goritz is burning at many points. Three thousand shells, hurled by the Italian batteries without let up, piled many houses into ruins, set serious fires throughout the city and killed many inhabitants. The damage is enormous.

From a military standpoint the bombardment accomplished little. The Austrians still hold their original positions and have repulsed enemy attacks. The increased intensity of the Goritz struggle is incidental to a general assault on the Isonzo line, but the Austrians are holding their own at every point.

The Goritz bridgehead has become the center of the Italian attack. Guns of every caliber are shelling it.

"On the northern slope of Monte San Michele," the war office admitted, "the enemy repeatedly penetrated our positions, but violent hand-to-hand fighting resulted in our troops completely maintaining their original fighting line. All attacks against the San Martino sector miscarried, with severe losses for the Italians."

North of the Goritz bridgehead several attacks of varying fierceness were driven back. Bombs were dropped on a Schio cloth factory.
